

Diss Community and Church Primary Schools Federation

**Diss Church of England Junior School and
Diss Infant School with Nursery and Children's Centre**

Dear Parents and Carers

We regularly place reminders in the school newsletter about parking and driving locally with care and consideration for our neighbours.

We have had a number of incidents recently where we have had to deal with very upset members of our local community.

It is not acceptable to have cars park and drive recklessly in and around the school approaches, preventing parents, children and local residents from having safe access to school and their own driveways.

We are sure that you will also agree that it is not acceptable to have children running into the neighbours gardens. Whilst we hope that some of these complaints are not actually about children from our school, it is quite likely that they are.

Thank you to everyone for keeping your children close to you and well supervised when walking along the road – we do not want to hear of any near misses with vehicles, or worse.

Please continue to park with great consideration for all the other people in our community.

It is our school safety week (17th – 21st October) and we will be taking time within each of the school days to talk about being safe, being seen, and being a good neighbour. Thank you for reinforcing these messages at home.

Yours sincerely

Karen Sewell
